## ABOUT US

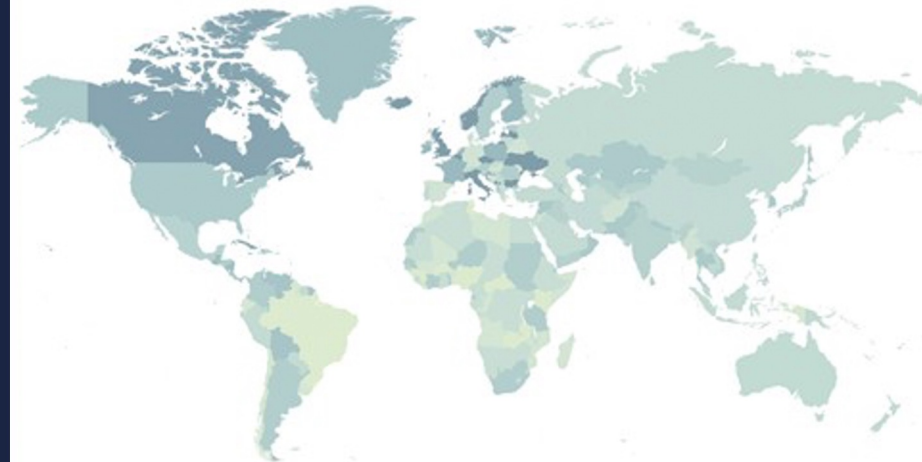

**Dijla Clearing & Forwarding LLC** is a foremost Freight Forwarding Company and a leading Customs Clearance Service Provider headquartered in Dubai, United Arab Emirates. Established in 2011, we have carved an unequalled niche of excellence by providing superior, top-quality shipping services to our esteemed customers. Since its establishment over a decade ago, Dijla Shipping has raised the bar high by meeting and surpassing clients' expectations while spreading its tentacles worldwide by establishing offices in China, Iraq, Turkey, India & Canada.

We have built robust, reliable, and efficient business networks and partnerships worldwide, providing superior door-to-door global shipping services and logistics solutions that meet our client's specific needs, requirements, and demands. In addition, we manage all cargo sizes globally, delivering with the highest level of effectiveness and accuracy to meet the highest levels of customer satisfaction.

Dijla Shipping is composed of a team of highly skilled, exceptionally professional management personnel with decades of experience in the shipping and logistics industry. Our team is passionate about attending to client requirements wherever and whenever the occasion demands. We understand the relevance of shipping and transportation to the smooth running and the overall success of any business. We at Dijla take this task to a new level of result-oriented execution.

Creativity, innovation, and excellence are our watchwords. These guiding principles distinguish us and propel us to provide the safest and most efficient shipping solutions. We deliver our cargoes in perfect condition handing them over intact to valued customers. With key offices in various countries, strong connections with agents around the globe, and through our membership with world-renowned networks like WCA, FIATA & NAFL organizations, we ensure the company's core values of honesty, transparency, and efficiency are always maintained.

To be the most trusted freight company globally, delivering premium logistics solutions, and effectively accomplishing end-to-end shipment services while simplifying shipping procedures by applying the most efficient and sustainable shipping strategies, which are both competitive and cost-efficient.

## VISION

To protect the interest of our clients and ensure accelerated service delivery through the establishment of global alliances, while meeting the demands of clients in the most appropriate and timely manner.

## MISSION

Priorities – Finding the right solutions and handling the shipments in a flexible and urgent way possible to ensure the comfort and satisfaction of the customer.

Innovations – Open to discovering and utilizing new shipping technologies to maintain excellence in providing affordable and efficient logistics services.

Ethics & Transparency – Guarantees a high level of professionalism in all business dealings with honesty and transparency as always observed and implemented

Efficiency – Adopting an appropriate and most effective approach to deliver all goods and services in a timely and productive manner.

Teamwork- Coordination and communication are common practices within the organization and sharing opinions and acceptance of diverse cultures are some of the principles of our development.

## VALUES

# Our Services

## Ocean Freight

We at Dijla Clearing & Forwarding LLC present an expansive network to many locations for all types of cargo commonly moved around the globe. We provide a complete array of sea freight services, from door-to-door to tracking and managing shipping documentation. We also offer services for all types of containers: standard, high cube, flat rack, open, reefer, and particular kinds of containers. In addition, our team of experienced technocrats offers customized solutions to manage all our client's requirements, from a less-than-container load (LCL) to full container loads (FCL), including oversized equipment and cargo. At Dijla Shipping, you can assess a single source to manage your ocean freight services worldwide. Some of our customized port-to-port or door-to-door services include:

- Full Container Load (FCL) Consolidation
- Less than Container Load (LCL) Consolidation
- Break Bulk Services
- Roll on/ Roll off (Roro) Ship Services
- Comprehensive Documentation Service including customs
- Oversize & Special projects
- Air Freight
- Land Transportation

## Full Container Load (FCL)

One of our services is the FCL worldwide sea freight with various containers such as standard, high cube, flat rack, open type, reefer, and a particular type of container. These services include managing and monitoring the booking, transit time, free time at the destination, daily tracking, etc.

## Less Than Container Load (LCL)

Dijla has come too far in making this service as accurate and convenient as possible for those with fewer cargo containers, such as few pallets or boxes, etc. We have developed a following up and measurement method system that makes worldwide

consolidation services very simple and convenient. Our LCL service brings economies of scale and the cost benefits of FCL shipments to shippers of LCL cargo. LCL keeps goods moving within the supply chain. Shipments can be sent as soon as they are ready rather than waiting until you have a full container. This is an effective strategy for ensuring the swift delivery of goods and cargo.

## Breakbulk and RORO Vessels

A special shipment requires a particular type of shipping strategy. For example, one of our services is shipping by breakbulk and Roll-on/ Roll-off (Roro) vessels. These types of vessels carry oversized shipments or goods that must be loaded individually, and not in intermodal containers nor in bulk as all types of trucks – jumbo bags, bags, bundles, crates, drums, or barrels such as oil and gas equipment, construction cargo, grain, pipes, cement, cars, etc.

# Air Freight

Air cargo is one of the most integral and influential goods transportation. It is also a vital part of the global logistics network chain. At Dijla Clearing & Forwarding LCC, we have built a global airfreight solution with professional clearing services that takes you above and beyond. Our services include door-to-door and airport-to-airport air cargo tracking with excellent clearing and delivery. The benefits of air cargo are speed and convenience. Air cargo can get your shipment to its overseas destination within a short space of time.

# Land Transport

Dijla Clearing & Forwarding LLC is among the leading companies providing international and local transportation logistics solutions. Dijla is renowned for providing regular, full-load services door-to-door. In addition, the company maintains flexible and tailor-made road services to meet the customer's needs. The Land Transportation department of Dijla provides a one-stop solution for domestic and international logistics services for fast, reliable, and flexible service delivery.

## Services Offered:

- Container and small shipments (Transportation from Port to Door)
- Land transportation between GCC countries
- Land transportation from Europe to Iraq via Turkey
- Border clearance

# CUSTOMS CLEARANCE

Customs clearance is the focal point of shipping. This is why we have crafted an effective customs clearance strategy that ensures that clients' goods and cargo get delivered to their doorsteps as and when due. We achieve this with over ten years of experience in customs clearance and our general understanding of the laws of the various countries we operate in. As a result, we guarantee an efficient customs clearance service that keeps our clients at peace while strategizing for them and ensuring we deliver as we promise. We offer customs clearance services for all import and export shipments.

## OTHER OFFICES:

### IRAQ

#### **DHEFAF DIJLA FOR GENERAL TRANSPORTATION LLC**

Since 2011, we have been providing exceptional shipping and customs clearance services in Iraq, which has become one of the Middle East's most important markets in terms of business.
